

Mexico LIFE Team Project

In Cuetzalan, a small town set high in the north of Puebla, Mexico, is a new church plant of committed believers. A group of people who was exposed to the gospel through a *JESUS* Film showing and developed a heart to minister to their community.

As a result, GAI*N*, in conjunction with the *JESUS* Film Strategy (*JFS*), has partnered together to come alongside this new church plant and serve in their community. This project also occurs over *Semana Santa*, or Holy Week in Mexico. It is a great opportunity to partner and be active in serving in a community during one of the times when people

are celebrating and thinking about the meaning of Easter.

From this comes a unique project experience!

Through merging the humanitarian actions of GAI*N* with a traditional *JESUS* Film style project comes a great opportunity to

- assist in the building of a simple church structure
 - minister in practical ways to the needy in the community
 - learn how to share your own story and have the opportunity to share it
-

- train and encourage the new church leaders
- host a festival for the community that will help the church to grow
- attend multiple showings of the JESUS film

Mexico has one of the richest histories in the “new world” and is in our own backyard. Come and be a part of working alongside a new church as they aim to change the future of their community.

Be a part of demonstrating the love of God to those hurting in Cuetzalan while being trained and equipped in sharing your own faith.

TRIP DETAILS

Date: April 5-15, 2012
